What Can You Do? When Times Are Dark You Can Light a Torch

A fine brave woman I know sometimes says that few of us can do great things in this world, but that almost anybody can light a few torches!

That's what she does. She's had joy and struggle in her life and plenty of trouble. But though she is sometimes unhappy and often close to tears, she doesn't whine, she doesn't fuss and nobody ever heard her say that life is a trap and a living failure. With her courage she lights torches for other people. She has lit many of those torches in her life-warm, burning torches that light the way for other people and never burn out.

### WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine. For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two ads of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the boweis. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely. But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resent a

Newark Man Kept Walking For 20 Hours To Work Off Overdose of Sleeping Pills

(International News Service) NEWARK, N. J., April 28.-Howard Edwards slept in Newark hospital today and doctors believed his walking race with death which lasted 20 hours was won.

After 20 hours, with the third set of attendants finding the exercise fatiguing, doctors decided the effects of the drug had worn off and permitted Edwards to go to sleep.

### SMART CAT RINGS DOORBELL TO GET IN OWNER'S HOUSE (International News Service)

WINSTED, Conn., April 28.—Wonders never cease in Winsted. The latest is a house cat which rings doorbells when she wants to enter her master's house.

George Bond of Front street was awakened soon after midnight a few days ago by insistent ringing of his front doorbell.

He tarried abed, thinking perhaps the caller, if it were a caller would go away. But the ringing persisted and Bond went grumbing downstairs, opened the door and looked out to find no one there but the

Bond was frankly annoyed. 'Who's there?" he called.

"Just me-ow" replied the cat or words to that effect. The cat then nonchalantly crossed the threshold. Bond said the cat has since played the same trick two or three times. He wonders if the animal could learn to make use of a latch-

# Want 6"plies" at a Low Price?

TERE is a tire that needs no introduction to several million car owners who have proved its sturdy value and honest wear on the road.

But even to old friends, the price is NEWS. And get this fact-these tires are built by Goodyear-marked with the Goodyear name and house flag-sinewed by that famous Goodyear cord material, Supertwist.

All of which means that these Goodyear Pathfinders can give you more for your money than tires ever gave before, and that is saying a whale of a lot.

If the tread on your tires is getting bald - if the rubber is getting thin - don't flirt with trouble and take chances of

skids. You can get a whole set of tires at such prices as these and hardly miss the money.

Read the sample prices shown here-remember they buy Goodyears.

Doesn't that make you ask yourself:"Why buy any secondchoice tire when FIRST-choice costs no more?"

### Scalp Covered With Rash. Hair Fell Out. Healed by Cuticura.

"I have been suffering with scalp trouble and falling hair for the past year. My scalp was covered with a rash that scaled over, and my hair fell out and was lifeless and dry. The itching and burning were unbearable, causing discomfort and loss of sleep.

"I tried other remedies without success. I was advised to try Cuticura Soap and Ointment so purchased some. After a few daily treatments the itching and burning gradually disappeared. I continued the treatment and after using three cakes of Cuticura Soap and two boxes of Cuticura Ointment I was healed." (Signed) Walter Seneski, 762 Spruce St., Kulpmont, Pa., Sept. 23, 1931.

### Using Toast Crusts In Invalid Diet

Nutritional Value Of Bread Unsurpassed—Clendening

By LOGAN CLENDENING, M. D. The young man who presides over the sandwich department of the cafeteria where I often have lunch, turns the sandwich three ways when completed and neatly cuts off the crusts. In doing so he removes the most digestible and, in some ways, the most nutritious part of the slice.

People with an acid type of dyspepsia, or with ulcer of the stomach, find that bread causes them more discomfort than any other article of diet. This is because it calls out a maximum flow of acid gastre juice. In fact, diagnosticians use bread as the basis of a test meal and allow it to remain in the stomach for an hour, knowing that when they remove the stomach contents there will be the maximum amount of acid for their tests.

Many cases of dyspepsia of the acid type are made comfortable simply by removing fresh bread from the patient's diet.

The crust, however, still can be eaten without discomfort. The crust is of slightly different composition from the interior part of the loaf. The protein of the wheat is coagulated and hardened and in spite of that made more digestible; it is less gluey when it goes into solution. There is more dextrin and caromel in the crust.

Toast, of course, has the same qualities, and for that reason is preferred in invalids' dietaries. Stale bread is well digested even

by people with ulcer. Curiously enough, we do not know exactly what happens when bread is staied. Changes take place which are not understood. It is not simply a loss of water, for when stale bread is rebaked with a low temperature the moisture returns to the loaf. Whatever happens, we know it is more digestible and should be chosen for invalids' food.

By remembering the differences in he action of crust, toast and stale bread in the stomach, bread can be made available for all kinds of peo-

It is well that this is so, because it still is and probably always will be the staple of our diet.

The nutritonal value of bread is unsurpassed by any other article of food on the table. It has taken man thousands of years to bring the growing of wheat, the milling and baking of flour, to its present state of perfection. It is a conquest which we will not willingly let go. Bread still is the staff of life.

# Fat Men

I don't care how fat you are or how much you hate to get out and walk a couple of miles. If you will take one half teaspoonful of Kruschen Salts in a glass of hot water every morning before breakfast for 4 weeks and cut down on pastries, sugar and fatty meats-

You will feel so good—so energetic and the urge for activity will be so great that you will immensely enjoy a daily walk of several miles

While you are losing fat you will be gaining in energy—in endur-ance—in ambition. Your skin will grow clearer and you eyes will sparkle with the good health that Kruschen brings.

Just try one bottle of Kruschen Salts; it will last you 4 weeks and costs but a trifle. After you have taken one bottle the old arm chair won't hold you any more—you'll enjoy work—you'll sleep like a top and by reducing surplus fat probably live years longer.

A man from Richmond Hill, N. Y., writes: "After 2 bottles of Kruschen, I've removed 3 inches from my belt, feel 25% more active, mind is clearer, eruptions have disappeared. Am 46 yrs. old and feel 20 yrs. younger. I get up feeling 100%. Kruschen sure is great!"

To take off fat harmlessly and SAFE-LY, take as directed above-don't worry -it's the safe way to reduce. But be sure for your health's sake that for ask for and get Kruschen Salts. Governor Asserts Children Can Be Conserved As Well As Trees

HEALTH FORCES READY FOR MAY DAY

HARRISBURG, April 28-The Exccord with the aims and purposes "May Day Child Health Day."

"Children can be conserved as well as trees. No one with any sort of common sense or patriotism questions the esstential wisdom of the conservation policies initiated by Theodore Roosevelt, which first were restricted to the natural resources of our country, its forests, its coal, its oil, its minerals-but which gradually have broadened. It is inconceivable therefore, that any one will question a still higher form of conversation—the conservation of the health of our children.

In entering upon the ninth annual observance of this May Day celebration, Dr. Mary Riggs Noble State Chairman, suggests that the million and a quarter little ones who have not yet entered school, must be protected against the insidious attacks of the following enemies of their health: Defective vision, faulty tonsils, adenoid growths, decaying teeth enlarged neck glands, imperfect lungs faulty hearts, bad posture, weak arches, susceptibility to colds and underweight.

This is a familiar list of dangers to social workers, public health nurses, and experienced lay committees but it must likewise be made familiar to all parents everywhere. Battling against these enemies is a form of war, and the contest is collossal. May Day organizations will

### Marlene at Cross-Roads in Hollywood Film War

German Star May Side With Rebellious Director Who Discovered Her and Sacrifice Brilliant American Career.

Following the suspension of Josef von Sternberg, famous film director, by the Paramount Studios, owing to his refusal to direct a picture, the story of which he disapproved, all Hollywood is asking itself what the attitude of Marlene Dietrich is going to be in the matter. Miss Dietrich was to have been the star of the picture involved and now that B. P. Schulberg, managing director of production at Paramount, has suspended von Sternberg's contract and assigned another director to steer Marlene through the picture, speculation is rife as to what course the German star will take. It is felt in some quarters that her sense of loyalty to von Sternberg may overrule her discretion and result in her siding with the director in open rebellion against the movie magnates. It was von Sternberg who made Marlene into the star she is today. In 1929, she was playing in a little revue in Berlin when he recognized in her a potential rival to the great Garbo. He brought his protege to America and by choosing her pictures and directing them has placed Mariene at the top of the movie ladder. Should Miss Dietrich decide to string along with her rebellious director, it may mean her extinction as a star in America. On the other hand she is free to bow to the wishes of the powers that be and remain secure on her pedestal. So the question of the moment in Hollywood is: "What will Marlene do?"

Some News, Some Views, But Mostly Just Observations Of Interesting Things Around New

Some of these days some smart egg is going to invent or discover some kind of sleeping tablets that work in the reverse of the present tablets. Instead of putting you to sleep they will take the place of sleep. And when they are invented, every newspaperman will rise up and call him blessed on election nights.

They would be a big help along about four o'clock in the morning when the world is a slate gray and the morning chill seems to bite right through to the bone.

Things are sometimes forgotter in the rush of election news. One thing forgotten yesterday was mention of the election board in the first precinct of the Seventh Ward. This board is composed of women entirely. Mere man need not apply.

By now it is a tradition among the board members that they must be first in with returns and on Tuesday night, true to form, they were first. At 8:19 (fast time) they reported a complete count of their vote for United States Senate and about 12 minutes later came through with

In the past four years, to the best of our recollection, the first precinct of the Seventh Ward has been first in with returns and this is no small precinct either. The women on it have their job down to a system, and the board could be used as a demonstration board for new election of-
